PREFACE.

In presenting the citizens of Jefferson their first Directory, we do so with the belief that it will be a welcome and useful visitor, not only to our friends of the town, but to all outside parties who may desire to learn of the very rapid growth of this attractive suburb.

It has been an undertaking that required special care and a great amount of labor, on account of the large territory the town covers—nearly six miles square. But we have used a staff of experienced reporters to gather the information, and we feel confident it will be found full and correct—two important features in making a Directory.

The close proximity of Jefferson to the business center of Chicago makes it a desirable place of residence for those who wish to reach the city quickly. And when the street railway is extended, and the promised additional trains are added by the Chicago & Northwestern Railway and the Milwaukee & St. Paul Railway, Jefferson will have a suburban service equalled by few outlying towns. It offers good homes to persons of moderate means. It only requires an ample supply of pure water, a thorough system of sewerage, and gas to *double* the present value of every foot of land in the town. These are needs however of all such new and rapidly growing communities. If the public spirit of the town officials properly represent the enterprise of the citizens in general, it will not be long before the improvements are made. We say, speed the day.

We desire to thank the citizens for their liberal patronage, and to acknowledge the kindness of those who have so cheerfully furnished the information we have solicited.

Respectfully

R. R. DONNELLEY & SONS.

HISTORY OF JEFFERSON.

In printing our first Directory we thought it would be acceptable to the citizens to give a brief sketch of the township.

The change from the township organization to the village organization took place on Tuesday, August 6, 1872. This change was effected in accordance with the general law of the Legislature of that year. The petition for the election was signed by thirty of the voters of the town. The judges of election were as follows: Clark Roberts, John Gray, S. S. Abbott and Charles Peters. The whole number of votes cast was eighty-two, of which number seventy-two were in favor of the village organization, and ten against it. It was then declared that the village of Jefferson was organized according to law.

The Board of Trustees then proceeded to elect as President William P. Gray. On August 24 twenty-five voters of Norwood Park petitioned for the appointment of James Winship as a member of the Board of Trustees to fill a vacancy. And on this day the corporate seal was changed to conform to the new village organization. The ordinances were revised by a committee appointed for the purpose, consisting of W. P. Gray, James Winship and S. M. Davis; and the ordinances as revised were adopted September 28, 1872.

The Boards of Trustees under the village organization have been as follows: Elected in 1872—the Supervisor, Assessor, and three Commissioners of Highways. P. P. Powell was appointed to fill the vacancy, the law allowing six Trustees. In 1873—William P. Gray, by 146 votes: Lyman A. Budlong, 135; Theodore Schultz, 124; Andrew Dunning, 121; M. N. Kimbell, 103; W. C. Hazelton, 97

In 1874—James D. Dymond, by 500 votes; David B. Fonda, 366; Frederick Hansen, 421; Henry Vanatta, 370; Squire Dingee, 375; Leon C. Welch, 380.

In 1875—Frederick Hansen, 537; Henry Vanatta, 503; Squire Dingee, 517; Charles Peters, 455; David B. Fonda, 367; John Austin, 357.

1876—James D. Dymond, 421; Frederick Hansen, 388; John Brunton, 375; David B. Fonda, 393; John Austin, 503; Henry Vanatta, 403.

1877—John Brunton, 446; H. F. Holcomb, 445: Frederick Hansen, 428; James D. Dymond, 338, John Austin, 329; Henry Vanatta, 261.

1878—Henry Vanatta, 400; J. J. Chase, 212; Frederick Hansen, 368; John Brunton, 416; H. F. Holcomb, 422; James D. Dymond, 381.

1879—H. F. Holcomb, 434; J. J. Chase, 329; Frank D. Wulff, 562; Joseph Titley, 571; Michael Moran, 471; Richard V. Spikings, 323.

1880—H. F. Holcomb, 366; Frank D. Wulff, 537; Richard V. Spikings, 329; Michael Moran, 338; Joseph Titley, 538; S. W. Riderburg, 305.

1881—S. W. Riderburg, 623; Frederick Hansen, 335; Joseph Titley, 339; elected for two years.

1882—Henry Wulff, 464; L. A. Budlong, 455; Michael Moran, —; total vote, 680.

1883—Joseph Titley, Ferdinand Hansen and Mr. McCormick.

1884—Henry Wulff, Michael Moran, Carl Koch, D. B. Fonda, Wm. Baragwanath, Spencer S. Kimbell.

1885—Henry Wulff, Charles Munch, Edward Austin, Spencer S. Kimbell, D. B. Fonda, Wm. Baragwanath.

List of Clerks.—D. N. Kelsey to December 14, 1870; George L. Gray to November 7, 1871; S. M. Davis, from November, 1871, elected by 250 votes, to April, 1874; elected in 1873 by 140 votes; in 1874, David S. Pride, 385, total vote 530; 1875, Chas. T. Linscott, 375; 1876, Charles T. Linscott, 346, total vote 503; 1877, Nicholas B. Hansen, 338; 1878, Nicholas B. Hansen, 431; 1879, Mark H. Reynolds, 216; 1880, Mark H. Reynolds, 505; 1881, Henry Esdohr, 317, total vote 633; 1882, Mark H. Reynolds, 380, total vote, 680; 1883, Mark H. Reynolds; 1884, Stephen A. Reynolds; 1885, Charles E. Dymond.

The Village Treasurers have been as follows, elected by the Board of Trustees: 1872–73, William P. Gray; 1874–75, Richard F. Race; 1876–77, Edwin Dymond; 1878, Theodore Schultz, who was treasurer until April, 1885, being succeeded in May by Jacques Froelich.

Up to 1875 the village had no regular attorney, In April of this year it was resolved that a village attorney should be appointed annually by the president and Board of Trustees. Under authority of this resolution S. M. Davis was appointed. May 7, 1876, S. J. Hanna, was appointed, and served from 1876 to 1880. William Robinson served one year, commencing in 1880.

Francis De Pfuhl was then appointed and served until May, 1885. M. H. Reynolds then served one year, and was succeeded by William M. Stanley.

Up to 1876 the salaries of the town officers were not definitely fixed, but on May 8, of this year, they were determined by ordinance, as follows: Captain of police, $500 per annum; first and second sergeants, $400 each. The attorney's salary was fixed at $720, and the village engineer was allowed $5 per day for time actually employed. On May 1, 1877, the salaries were reduced to the following sums: Attorney's, $700; engineer, $300 per annum; captain of police, $300; the two sergeants, $200 each; the Clerk's salary was fixed at $350; the Village Treasurer was allowed one and a half per cent on all disbursements, and the Street Commissioner was allowed $3 per day with team, and $1.50 per day without team. On the 4th of June, 1881, the salaries were changed to the following sums: Attorney's, $500; Clerk's, $500; engineer, $600; captain of police, $600; sergeants', $250; night watchman, $350, and the Treasurer was allowed two per cent on all disbursements. In May, 1886, the salaries were changed to the following: Attorney, $1,500; Clerk, $1,400; Engineer, $1,200; Street and Bridge Commissioner, $1,026; Captain of Police, $1,200; Sergeants, $840; 14 Patrolmen, $720 each; and the Treasurer is allowed 2½ per cent. on all disbursements.

The Artesian Wells of this township are a noticeable feature in its improvements. The first one bored was that on the farm of M. N. Kimbell, in 1869. A depth of 653 feet was reached, at at a cost of $4,000, and there was originally a flow of two hundred gallons per minute, the quantity being ascertained by repeated and careful measurement. That in Maplewood, on Section 25, was bored in 1869, to a depth of 720 feet. John Gray's was bored in 1870, to a depth of 1,600 feet at a cost of $5,000, and a flow of about fifty gallons obtained. That of William P. Gray was bored in 1871, orignally to a depth of 750 feet, and subsequently to a depth of 1,676 feet, at a total cost of about $7,000. From this well there was originally a flow of about two hundred gallons per minute. Joseph Bickerdike's well on Section 25 was bored in 1874, to a depth of 740 feet at a cost of $3,000, and a flow of about 200 gallons obtained. The deepest well in the township is that bored by the Trustees of Jefferson, being 2,200 feet deep, costing $4,500, and flowing 200 gallons per minute. The total number of these wells is nine. The quantity of water given as the flow of the wells is in most cases estimated, and in nearly every case it has very greatly diminished since the water began to flow. From that of Mr. Kimbell the flow is now intermittent and only very light. Only a small stream flows from each

of the others, with the exception, perhaps, of Mr. Bickerdike's, which has maintained its flow more nearly than any other. The reason for the decrease is, in some cases, at least, the gradual filling in of the boring, especially in that part of it passing through shale. While the water is excellent, and a great boon to those who can not have water from the city water works or good well water, yet the reason for the existence of artesian wells on this level prairie is as yet somewhat enshrouded in mystery.

SCHOOLS.—The first school district was organized in 1836. It included the whole township. Reese Eaton was the first teacher, and his salary was $11 per month, out of which he paid for his board. L. H. Smith was the second teacher. His salary was $15 per month and "board around." Soon after this M. N. Kimbell organized a school which was taught in his own house for two consecutive seasons, during which he boarded the teacher. To this school the pupils came a distance of from one to four miles, and when the weather was severe they remained at his house all night. At this time there were four school-houses in the town, and the long winter evenings were devoted to spelling schools, held in turn at each of the houses. In addition to the spelling exercises, which are said to have been positively bad, there were declamations, vocal and instrumental music, and occasionally a tableaux entertainment. The day schools are described as having been practical ones, in which the principal branches taught were reading, writing and arithmetic, the time not being devoted mainly to map drawing "at the expense of a dead failure in all other departments of knowledge."

The first school district was organized in 1842. In April of that year, Gustavus V. Smith, Edward Simons, Niram Sanford, Philip Townsend and William E. Sayer were elected a board of school trustees. Andrew Fleming was appointed treasurer. In June it was voted "that this township shall (for the present) constitute one school district." On the 11th of this month the secretary of the board of school trustees was instructed to call a meeting of the inhabitants of this township, to be held at the house of E. B. Sutherland, "for the purpose of taking measures to erect a school-house." The meeting, however, does not appear to have been called, nor the school-house built. The board of trustees encountered some financial difficulties. Andrew Fleming, the treasurer of the school fund, had made a loan of nearly the whole fund, $48 in amount being loaned, and had left the State. The loan was a proper one, but the money was not available, and the treasurer's accounts, upon examination, showed him to be indebted to the fund to the amount of fifty-five cents. This discovery is said to have been discouraging to the board of trustees. Edward Simons was appointed treasurer to succeed Mr.

Fleming. He made a discovery which was still more discouraging to the board than the indebtedness of their former treasurer. This was the finding of $20 of wildcat currency in the treasury. These notes were on the State Bank of Illinois. The newly appointed treasurer was instructed to dispose of them to the best advantage, provided he should not sell them for less than fifty cents on the dollar. The first entry on record in this township of money paid for teaching, shows that in October, 1843, this money was paid to L. H. Smith, on a certified schedule for teaching, at fifty cents on the dollar. What Mr. Smith did with the money does not appear. On December 5, 1843, Rees Eaton was paid $24 for teaching. In June, 1844, Russell Morton, Luman Kibber and M. N. Kimbell were elected to fill vacancies in the board of school trustees.

On the 22d of July, 1844, District No. 2 was formed, at a meeting of the board held at M. N. Kimbell's tavern. It was voted that so much of this township as is included in the southeast quarter thereof be set off as a school district, to be known as District No. 2. Before this, District No. 1 included thirty-six sections. It was, by this resolution, reduced to twenty-seven sections, District No. 2 including nine sections. In 1845, two more districts were formed, and thus the township was divided into four districts, each containing nine sections. By this time the school fund had increased to several hundred dollars, and was loaned at an annual interest of twelve per cent. The interest was generally promptly paid, though not always, as appears from the following entry. To interest received from Samuel Coe, which ought to have been paid long ago, $5.10.

In 1846 Marcellus B. Smith was appointed treasurer of the school fund, and in 1847 he was succeeded by Gustavus V. Smith. In 1849 G. V. Smith first recorded the enumeration of the school children in the township, which was as follows: District No. 1, 30; No. 2, 36; No. 3, 37; No. 4, 104; No. 5, 60; No. 6, 43; No. 7, 38; total number, 351. Robert J. Edbrooke became treasurer in 1850, and held the office nearly twenty years. In 1854 the school fund had increased to $4,827.50. New school-houses continued to be built, and more and more money was expended for school purposes from year to year. In 1866 the principal of the school fund amounted to $7,234.58. In 1869, when Treasurer Edbrooke retired from his office, there were ten school districts in the township, each of which had a school-house. Nine of them were frame structures and one, in District No. 7, a neat brick building which cost when erected about $1,000. In 1871 two sections were taken from District No. 2 and organized into a separate district, No. 11, known as the Maplewood district. In this district in 1874 there was erected the first of those costly and

commodious school-houses of which there are now no less than nine in the township. This building is a two and a half story and basement structure. Originally it had four rooms and cost $20,000. In 1882 one room was fitted up in the basement, and in the same year a wing containing three rooms was added.

The district school buildings in this township are so exceptionally elegant and commodious that a brief description of the principal ones is introduced: That at Bowmanville, in District No. 1, was erected in 1874 and cost $6,000. It has a seating capacity of 150 pupils. The school building at Avondale, in District No. 2, was completed in 1879 at a cost of $7,000. This building will accommodate 250 pupils. It is located at the intersection of Milwaukee avenue and Diversey street. That at Kelvyn Grove, in District No. 6, occupies a large lot at the corner of Fullerton and Jefferson avenues. It is a substantial brick building, with seats for 100 pupils, and cost $9,000. That at Jefferson Village is one of the best constructed school-houses in the county. It was opened in 1865, and cost over $10.000. It has a seating capacity of 200 pupils.

District No. 11 comprises the two rapidly growing villages of Maplewood and Humboldt. The large building on Hoffman avenue has already been mentioned. Besides this, there is a building at Humboldt erected in 1882. This is a two story and basement building and cost $11,000. There is also in this district a new two-story and basement brick building at Maplewood, erected in the fall of 1883 for primary pupils, costing with the ground $10 000. Besides these, two buildings containing two rooms each are rented for the accommodation of scholars.

The first Board of Education for this district was elected in 1882, and consisted of G. M. D. Libby, S. W. Riderburg, A. D. Michaud, Francis De Pfuhl, J. P. W. Peterson, and P. W. Bandow. G. M. D. Libby was made president of the board and Francis De Pfuhl secretary. The present board consists of Francis De Pfuhl, president; S. W. Riderburg, secretary; G. M. Libby, Richard Frerkson, Fred Tresselmann, and James L. Lee. The first superintendent of these schools was J. B. Farnsworth, who was assisted by fourteen teachers. According to the report for April 1, 1883, the number of males in this district under twenty-one years of age was 2,150, the number of females 1,220, and the number of pupils enrolled 959, while the average daily attendance was 747. The total estimated value of the school property was $46,400, and the bonded indebtedness $25,000. J. B. Farnsworth in May, 1885, succeeded R. W. Graham, and is now the present superintendent.

Irving Park is in District No. 13. The school building in

this district was first occupied in 1876. It will accommodate 250 pupils and cost $30,000. It is surmounted by a huge dome.

In 1857 the Legislature of Illinois enacted a law under which townships of an area six miles square were empowered to establish one centrally located high school with facilities for advanced scholars. Jefferson Township did not avail itself of the provisions of this law until 1869. At the annual town meeting of that year, held November 2, the first steps were taken toward the establishment of a high school in this township. At that meeting John Gray offered a resolution that $3,000 be raised for the purpose of establishing a high school in the Town House, to be under the control of the board of school trustees. John Gray was elected school trustee at this meeting. For three years after this an appropriation for the high school was voted upon and carried with but little if any opposition. In 1871 the tax for this purpose was two and one-half mills on the valuation. The school was first opened in the upper story of the Town House in May, 1870, under the principalship of Professor J. B. Farnsworth. In 1873 the Legislature passed a law for the establishment of township high schools, and the school was organized in accordance with its provisions, Professor Farnsworth remaining principal of the high school until 1877, when he resigned and was succeeded by a new principal. Soon after this, on account of the erection of expensive and commodious district school-houses, and the better educational facilities afforded in consequence in the districts, the attendance upon the high school became so limited that the trustees determined to suspend, at least temporarily, its operations, and the school was closed. The friends of the school were, however, not willing to lose it altogether, and its property and funds were held intact. The latter was increased by accumulating interest, and on June 6, 1882, a motion was made by Henry Esdohr, one of the board of school trustees, to submit certain propositions to the voters of the township. These propositions were as follows: First, to erect a new building for the high school. Second, to issue bonds to meet the expense of the erection of this proposed building; and Third, to select a site for it. The first two propositions were ratified almost unanimously; the selection of a site was not clearly determined upon. Proposals were thereupon solicited for site to be donated, and the board of trustees selected the site proffered by George C. Thomas, of Montrose. The site is about forty rods north of the Montrose station, and upon it a fine three-story brick building was erected in the summer of 1883. This building cost $30,000, including full sets of philosophical, chemical and physiological apparatus, zoological charts, and all appointments necessary to a school of this character. The building was dedicated October 5, 1883, the address

being delivered by Dr. D. B. Fonda, from whose address, as well as from the financial report of W. C. Hazelton, many items of information respecting the high school, as well as the district schools, have been obtained. Professor C. A. Cook was the first principal of this school, which opened in the fall of 1883. He is assisted by two teachers, and there are on the average seventy-five scholars in attendance. Following is a list of the treasurers of the school fund from 1840 to 1886: Edward B. Simons, 1840; Marcellus B. Smith, from 1840 to 1846; R. J. Edbrooke, from 1846 to 1861; William C. Hazelton, from 1861 to 1881; Henry Esdohr, 1881, and was followed by Spencer S. Kimbell, who is treasurer at the present time.

MISCELLANEOUS INFORMATION.

TOWN OFFICERS.

Supervisor—Theodore Schultz.
Town Clerk—Charles E. Dymond.
Assessor—William Johnson.
Collector—Daniel Booth.

VILLAGE OFFICERS.

Village Clerk—Charles E. Dymond.
Attorney—William M. Stanley.
Treasurer—J. Froehlich.

We have lately added to our equipment a machine for BORING FLOORING, and to bring it into general demand, are adding but ONE DOLLAR per thousand to above list for bored flooring. We know this will save FIVE DOLLARS per thousand in laying floor, besides the saving in time, and a much better laid floor; can bore for any spaced joist, and having large quantities on hand can ship promptly.

GIVE OUR HARDWOOD FLOORING A TRIAL. DELIVERED PRICES OR ANY INFORMATION FURNISHED PROMPTLY.

"THE HOME JOURNAL OF THE WEST."

The Saturday Evening Herald,

CHICAGO,

89 Clark Street, Grand Opera House Block.

The HERALD is now in its eleventh year, and has achieved a reputation as a Literary, Critical and Social authority. It publishes more Critical Matter, Society Reports, and Pure Literature than any other weekly in the West.

1. Literature, Book Reviews Essays, Poems, Stories, Sketches.
2. Social Reports and Gossip, Fashion Articles, and Discussions of Home Topics.
3. Musical and Dramatic News, Criticisms and Correspondence
4. Correspondence from the principal Eastern and European Cities.
5. Watering Place Reports and Notes of Travel.
6. Amateur Rowing, Yachting and Athletic Reports in their season.
7. Editorial DI cussions of Noteworthy Events and Important Topics, Observations and Scientific papers.

Subscription, only $2 per annum.

THE SATURDAY EVENING HERALD is honest, outspoken and independent. It possesses a flavor of its own, which has earned some distinction for it and many friends. Intelligent persons are invited to institute comparisons between it and the average three-or-four-dollar per annum publications.

BUY THE LIGHT RUNNING

NEW HOME

SEWING MACHINE,

IT IS THE BEST!

There is now over 700,000 New Home Machines in use in the United States.

The New Home was first introduced in the West by Mr. Geo. L. Gray, who has lived in Jefferson for the past 30 years. He has now the general management of the North-West for the company and respectfully solicits home patronage.

Let us bring a machine to your house, for you to examine, and if you give it a thorough trial, and are not convinced that it is the best, we will not ask you to buy it. Address,

GEO. L. GRAY, Irving Park, P. O.
WOLFF BROS., Jefferson P. O.

DR. J. G. TRINE'S

INSTITUTE OF THE

Movement-Cure.

For the Treatment and Cure of all Difficult Cases of Chronic Diseases and Weaknesses.

Is now located at the Elegant New Ryerson Building, Second Floor (Entrance by Elevator.)

45 Randolph Street.

The Movement-Cure apartments are spacious, airy and beautifully light, unequalled for space and elegance by any Movement-Cure in the United States. Equipped with special apparatus and conveniences for the successful treatment of Chronic ailments generally.

It is specially applicable in Rheumatism, Paralysis, Sciatica, General Debility, Stiff Joints, Imperfect Circulation, Dropsical Conditions, Hemorrhoids, Constipation, Torpidity of the Liver, Dyspepsia, and all Diseases of the Digestive Organs, Nervous Affections of all kinds, Neuralgia, Sleeplessness.

Diseases of the contents of the Female Pelvis, including Dislocation of the Uterus, Ovaries, Bladder and Rectum, Inflammations, Weaknesses and Hernia and Rupture included.

Invalids not content with the limited effects that drugs are able to produce, will here find curative advantages and vast remedial resources by which the vital powers are developed and maintained.

Dr. Trine's Movement-Cure comprises Movements and Massage in infinite variety of form. The ordinary Massage and Swedish Movements alone bear no comparison to the more modern methods here adopted

The Treatment is always adapted to the patient's feelings, and is always agreeable and ever enjoyable. Established in Chicago, 1867. Interested inquirers welcome. Investigation freely invited. The Medical Profession should in justice to science examine the medical resources here brought into prominence.

A Method of Cure

Without Medicine.

For Paralysis, Rheumatism, Consumption, Asthma, Insomnia, Neurasthenia, Nervous Exhaustion, Writers' Cramp, Operators' Paralysis, Diseases of the Spine, Kidneys, Liver, Spleen, Heart, Digestive Organs, Diseases of the Brain, Nerves, and Nerve Centers, Curvatures of the Spine, Tumors; Shrunken, Atrophied or undeveloped Limbs, or parts of the body; Impotency, Spermatorrhœa, and all Diseases of the Procreative Organs, Paralysis Agitans, Locomotor Ataxia, Bright's Disease, Diabetes, Inflammation of the Bladder or Urinary Organs, Hemorrhage of the Lungs or Uterus, etc.

For the overworked, either physically or mentally, this treatment is of inestimable value. It immediately relieves the congested nerve centers, stimulates the circulation (equalizes the circulation of the blood,) affording nutrition to all parts of the system. The Vacuum Treatment is entirely mechanical, scientific and natural, assisting nature in restoring the circulation of the blood and nerve vital fluids to any and all parts of the diseased body. This improved circulation produces health. Its stoppage in any part produces disease to that part, and if not arrested will soon pervade every part of the system, causing DISEASE, and finally DEATH.

The Vacuum Treatment immediately restores the circulation of the life-giving fluids to any and all parts of the body, restoring the diseased body (or parts of it) to a strong and healthy condition. The above cut partly illustrates my method of treating disease. I have instruments for treating every part of the body. By its means I am enabled to withdraw, displace, accumulate or concentrate a part of the blood, according as the varying circumstances of the constitution, age, existing disease etc., of the patient may render expedient. Though the blood is withdrawn from the suffering part, not one drop is lost. Health is the result of good blood, well circulated through free channels. In chronic diseases the capillaries, or small blood vessels, become contracted or obstructed by the accumulation of morbid matter; hence, disease of every name or nature. It is through the CAPILLARIES that the body is nourished; the restoration of the circulation of the blood to the diseased organs restores that organ to its normal condition, HEALTH.

For the Success of this Method of Treatment I would respectfully refer you by permission to

Hon. Joseph Gary, Judge of Supreme Court, Cook County; **T. S. Cunningham**, Insurance, 220 La Salle St.; **C. C. Holton**, Furniture, 226 Wabash Ave.; **N. A. Williams**, ewer Pipe, Fire Brick and Clay, 229 Washington St.; **Chas. Hutchinson, S. H. Sweet**, Sweet, Dempster & Co., 220 and 222 Monroe St.; **T. T. Morford**, Agent Union Steamboat Line, Washington St.; **Frank S. Wright**, Cements, Lime, etc., 98 Market St.; **J. R. McKay**, of Wheeler, Munger & Co.; **John & George Turnbull**, Contractors and Builders, rear 84 La Salle St.; **Mare Sherwood**, Salesman, Marshall Field's Wholesale; **F. E.
